Manual Dishwashing Procedure

Sort  Scrape
Stack on drainboard or equivalent shelf

Wash
with detergent in water at 110°F or above

Rinse
in clean water to remove detergent

Sanitize
in water at 170°F or above for at least 30 seconds
OR in chemical sanitizer at 75°F or above

Most common chemical sanitizers:
1. Chlorine – 50-200 ppm for at least 1 minute
2. Quaternary ammonium compounds – 150-400 ppm or as indicated by the manufacturer’s use directions for at least 1 minute

Chemical test strips to measure parts per million (ppm) are required when using chemical sanitizers.

DO NOT
dry with paper or cloth towels

Air Dry
on drainboard or equivalent shelf
