What is EI Colorado?

Early Intervention (EI) Colorado supports families of children from birth to their third birthday who have developmental delays or disabilities.

EI Colorado services include coaching and support to give parents the information and skills needed to turn everyday interactions and activities into opportunities to help children learn and grow.

Everybody's Different

Everybody's different in their very own way. It isn't such a bad thing, like other people say. It makes us very special, in fact very unique. It doesn't matter if it's our face, our walk or even the way we speak. So hold on to your differences, they are what make you, you. Love yourself no matter what and others will love you too.
